

## NEW BOOK - A Collection of Rare Indian Relic Auction Catalogs

### Auction of Prehistoric Indian Artifacts: The Robert N. Converse Auctions 1983-1994

by **Robert Haag**

This beautifully illustrated collection contains the Robert Converse Auction catalogs, 1983 - 1994. There are 33 catalogs in this collection including sale catalogs for John Sarnovsky, Jack Hooks and many other notable collectors.

The second in a three volume set, this book is a must have reference for collectors of prehistoric Indian art. Thousands of relics can be easily identified from the pictures within the catalogs. The sale catalogs also provide valuable information on many specific relics, numerous prices realized sheets and a number pre-sale flyers.

Mr. Haag is a 36-year member of the *Archaeological Society of Ohio* and author of *Footpaths to Ancient Campsites in Copley Township, Ohio* (2008) and *Indian Relic Collection: The Painter Auctions 1977-1988* (2009).

In soft cover and deluxe hardbound limited editions, no more than 550 copies will be available in this first printing.
